Plaster Splinting System

OCL® is the first name in Plaster Splint Roll. OCL Splint Roll is constructed with 15 or 11 layers of plaster encased in open cell foam and flannel. The open cell foam provides padding and prevents migration while the flannel reduces moisture retention.

Features & Benefits

- DuoSet™ plaster allows a quick set time with minimal heat
- Open cell foam and flannel
- Reinforced layer
- Available in 2", 3", 4", 5" and 6"
- 11 and 15 layers

OCL® Splint Roll - 15 Layer
