## Features and benefits

- Thicker material provides more containment than other Compreflex products to address lower extremity lymphedema
- Garment features a moderately-contoured calf design to fit edematous legs
- 20–50mmHg of adjustable, gradient, inelastic compression
- Stretch panel holds garment in place for easy application and high compliance
- Transition Liners feature an antimicrobial wash for bacteriostatic properties and odor control and an average of 10–15mmHg of compression in the foot and ankle

## Includes

- 1 Compreflex Contain garment
- 1 Pair of Transition Liners

## Ideal for

- Lymphedema, Edema, Lipedema

## Fiber content

- 48% Cotton • 25% Polyamide  
13% Polyester • 9% Polyurethane Foam  
5% Elastane
- Not made with natural rubber latex
