PRODUCT INFORMATION

A-318 OH Thinner

PRODUCT DESCRIPTION:

Straight chaine dimethylpolysiloxane oil with reactive hydroxyl end groups.

CHARACTERISTICS:

Appearance.....viscous liquid
Odor.....none or inperceptable
Viscosity @ 25°C.....750
Specific gravity @ 25°C.....0.975
Freezing point, °C,approx.....- 45
Flash Point °C min220

EXAMPLES OF APPLICATIONS:

Used for the preparation of room temperature curing elastomers.
Used for filler treatments.
Water repellent treatment of glass and rock wool.
Additive for polymer extrusion and transformation.

Packaging:

Available in 16 oz bottles. Contact Factor II for pricing.

WARNINGS ABOUT PRODUCT SAFETY:

Factor II technology believes that the information and data contained herein is accurate and reliable; however, it is the user's responsibility to determine suitability and safety of use for these materials.

Factor II cannot know the specific requirements of each application and hereby makes the user aware that it has not tested or determined that these materials are suitable or safe for any application. It is the user's responsibility to adequately test and determine the safety and suitability for their application. Factor II makes no warranty concerning fitness for any use or purpose. There has been no testing done by Factor II to establish safety of use in any medical application. Factor II has tested this material only to determine if the product meets the applicable specification. (Please contact Factor II for assistance and recommendations when establishing specifications.) When considering the use of a Factor II product in a particular application, you should review the latest Material Safety Data Sheets and contact Factor II for any questions about product safety information you may have.
