Children are more active than adults

Children don't just walk — they run, jump, climb, and explore with boundless energy. While many adults may not sprint through their day, for children, movement is a natural part of growing up.

That's why our junior solutions product line includes dynamic foot solutions designed to keep up with every step, leap, and splash. From a running foot for children with longer residual limbs to a hybrid walking/running foot, the Cheetah® Xplore, we've long supported young users with active lifestyles.

Now, with the introduction of the Pro-Flex® LP Junior, we're proud to offer a waterproof solution that brings the trusted performance of Pro-Flex technology to the pediatric population. Whether it's a day at the pool, a hike through the woods, or a game of tag on the playground, our solutions are built to empower children to move freely — and confidently — through every adventure.

SPLIT TOE

SANDAL TOE

WATERPROOF

The Pro-Flex LP Junior is a low profile design to keep up with the most energetic young users, delivering exceptional ankle range and power, enhanced durability, and waterproof performance. Built with the proven Pro-Flex three-blade technology and split toe design, it promotes a smooth, natural gait combined with comfort and control every day.

Waterproof and with a user-removable foot cover, with water drainage properties, a treaded sole for better grip, and a sandal-clamping toe, is easy to clean and maintain, offering children the freedom to bathe or take part in water activities. The simple snap-on cover empowers both children and parents with added independence and peace of mind.

Vari-Flex® Junior

FULL LENGTH
TOE LEVER

ACTIVE TIBIAL
PROGRESSION

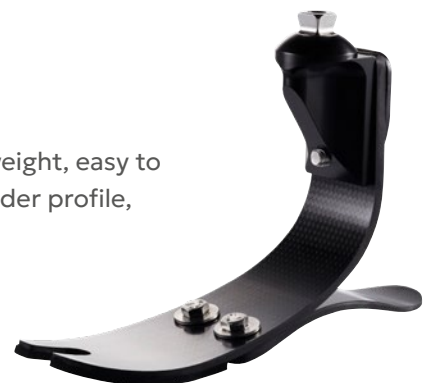

SANDAL TOE

WEATHERPROOF

Vari-Flex Junior is designed for children and adolescents providing comfort, dynamics and good energy response.

Vari-Flex Junior is lightweight, easy to assemble and has a slender profile, making it easy to cover.

Cheetah® Xplore Junior

FULL LENGTH
TOE LEVER

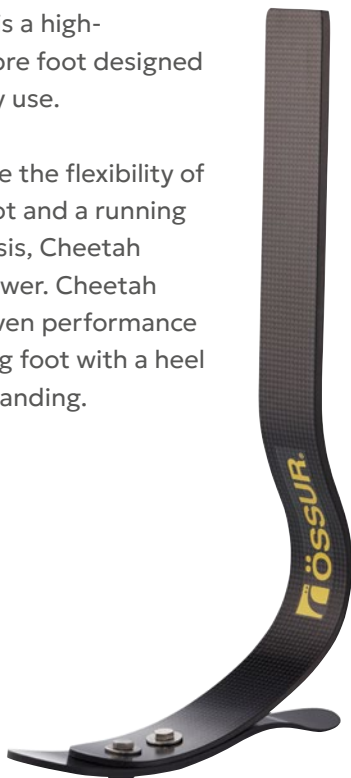

ACTIVE TIBIAL
PROGRESSION

WATERPROOF

Cheetah Xplore Junior is a high-performance carbon fibre foot designed for sports and everyday use.

For children that require the flexibility of an everyday walking foot and a running foot in a single prosthesis, Cheetah Xplore Junior is the answer. Cheetah Xplore couples the proven performance of our Cheetah sprinting foot with a heel for everyday walking/standing.

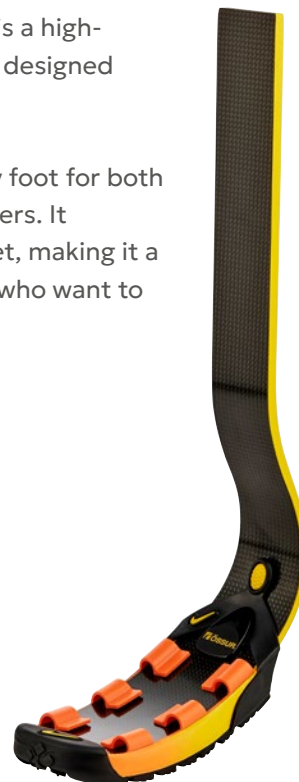

Cheetah® Junior

WATERPROOF

Cheetah Junior with Nike Sole is a high-performance carbon fibre foot designed primarily for sports activities.

This is the optimal run and play foot for both transtibial and transfemoral users. It attaches posterior to the socket, making it a proven performer for children who want to practice sports.

Flex-Run™ Junior

WATERPROOF

The Flex-Run Junior with Nike Sole was specifically designed for children. Its vertical compliance and efficient energy return make it especially suited for highly active children.

Now made with fibreglass for enhanced durability, it is designed to be the most flexible foot in our range of running feet.

Iceross® Junior

LOCKING

ACTIVE SKIN CARE

FABRIC COVER

SILKEN INNER SURFACE

STABILIZING MATRIX

WAVE

Iceross Stablio® Junior Locking Liner is especially designed for a day filled with games and activities. Ideal for children that require soft tissue stabilization.

Iceross Dermo® Junior Locking Liner offers comfort and impact protection for children with sensitive skin engaging in medium impact activities. Active Skin Care ingredients are built into the silicone material of both liners.

Total Knee® Junior

MULTI AXIS

INCREASED GROUND CLEARANCE

GEOMETRIC LOCK

MECHANICAL CONTROL

SINGLE SPEED

EXTENSION ASSIST

ADJUSTABLE STANCE FLEXION

SOCKET CONNECTOR ADAPTATION

Total Knee Junior offers all the same technology as the award-winning Total Knee; and improved durability is featured with high quality needle bearings.

Field days are no problem on this lightweight, extremely durable, aluminum knee. At 0.87lbs (395g), Total Knee Junior packs all the technology of Total Knee into two-thirds the size. Smooth extension resistance for quick motion, flexion control to minimize heel rise and an adjustable stance flexion feature provide control, shock absorption and freedom to move like a child.

Icelock® 700 Series

WATERPROOF

A strong, lightweight ratchet lock designed for use with Icross Junior liners.

Icelock 700 series consists of a ratchet lock, lock adapters and fabrication tools specifically designed to fit small residual limbs. The lock is approximately 30% smaller than those in the Icelock 600 series and is ideal for lower extremity applications for children.

This lock is Ultra-lightweight and at the same time strong and durable. The reusable stainless fabrication tools are designed to make the fabrication process as simple as possible. The lock can be removed from the inside of the socket, making it easier to service.

Junior Waterproof Adapters

WATERPROOF

For sockets, knees and feet, we make the strong, lightweight, and now also waterproof adapters to help you assemble the best solution every time. Guaranteed to connect all Össur Junior products.
