KNOCKOUT™

Protect | Stabilize | Recover

Knockout™ is a high-performance brace designed to stabilize metacarpal fractures with comfort, adaptability, and ease of use for both clinicians and patients.

Protection That Pulls No Punches

- 3-in-1 design adapts to multiple fracture types for versatile clinical use
- Malleable padded stays provide a customized, supportive fit
- Adjustable straps accommodate swelling and improve patient comfort
- Easy one-hand application supports patient independence and saves clinician time
- Three sizes (XS, Standard, XL) fit a wide range of patients

KNOCKOUT™

Knockout delivers strong, versatile support for metacarpal injuries, including Boxer's Fracture, Radial Gutter, and fractures of the 3rd and 4th metacarpals. Its adaptive design provides stable immobilization while maintaining comfort and ease of use, helping patients recover with confidence and clinicians treat with efficiency.

Common Uses:

Boxer's Fracture

Designed to support the 4th & 5th metacarpals in a stable, functional position. Adjustable materials help limit unwanted movement while maintaining user comfort.

Radial Gutter Fracture

Provides targeted support for the index and middle fingers by stabilizing the 2nd & 3rd metacarpals. Malleable stays contour for an adaptive, secure fit.

3rd/4th Metacarpal Fracture

Offers balanced stabilization across the mid-hand, helping reduce stress on the affected area while accommodating natural hand motion and swelling.

Ordering Information:

LEFT	RIGHT	CIRCUMFERENCE*	SIZE
100807-100	100807-200	<7" (18 CM)	X-SMALL
100808-100	100808-200	7" - 10" (18 - 25 CM)	STANDARD
100809-100	100809-200	>10" (25 CM)	X-LARGE

*MEASURE CIRCUMFERENCE OF HAND AT PALMER CREASE

Indications for Use:
Boxer's Fracture, Radial Gutter Fracture, Injuries to the 3rd and 4th metacarpals.
