

Lateral Stabilizer with Hinge Soft Knee Brace

Sizes: xs, s, m, m+, l, xl, xxl

The Lateral Stabilizer with Hinge offers a strong tubular, lateral buttress that is for lateral stabilization of the patella and is commonly used by patients with patellofemoral conditions. The ultra low profile hinge helps address valgus movement.

Common Examples of Use

- Lateral patella subluxation
- Chronic patellar maltracking
- Mild chondromalacia

Product Features

- Available in Airmesh™ and neoprene
- Low profile design allows for improved patient compliance
- J-shaped buttress provides lateral patellar stabilization
- Inferior and superior straps provide additional compression

Category: Patellofemoral.
