

TRUE ADJUSTABILITY

PATENTED 10004614B1, 10406003B2, 11844667B2

THE QUATRO ADJUSTABLE SOCKET

- ✓ Adjust with a turn of a dial
- ✓ Maximize compression
- ✓ Less office visits
- ✓ Lower abandonment rate
- ✓ Higher proprioception, less falls
- ✓ Higher functional levels, better weight loss
- ✓ Tailored design and engineering process
- ✓ Design, print, fit, and ship in weeks
- ✓ Engineered and built in the USA

The **Quatro Adjustable Socket** is a state-of-the-art, award-winning, patented socket system that provides users with the ability to adjust volume and compression with the turn of a dial. Designed for an ergonomic and secure fit, studies show higher proprioception giving you more control over balance and motion.

Each Quatro Adjustable Socket is tailored, designed, and engineered in our proprietary computer-animated design suite and manufactured using industrial-strength materials in HP MultiJet fusion printers. Each Quatro is subject to quality control at each stage to ensure safety and durability, as well as a custom-tailored fit. Digital sockets and/or inner liners can be remade accurately months or years later, without recasting.

To fit your patient with a Quatro, all you need to do is fill out the **order form**, send the **check socket** to our address below, and we'll create a digital scan of the check socket to start your custom Quatro socket. We also accept digital scans from our approved list of 3D scanners.

ORDER YOUR QUATRO TODAY!

THE QUATRO

ADJUSTABLE SOCKET

L-CODE L5783

Our adjustable prosthetic sockets are now eligible for insurance reimbursement under **L-Code L5783** & **L-Code L7406**, covering prosthetic volume adjustment. This recognition ensures greater accessibility for users seeking a precise, customizable fit that adapts to their needs.

STUDIES

CU Boulder Gait Study: Proven to improve gait symmetry and performance, proving the Quatro Adjustable Socket's effectiveness.

HP Whitepaper Study: Explored mechanical test limits of 3D-printed lower-limb prosthetic sockets to verify durability.

TESTIMONIALS

“The best fitting leg so far in 22 years!” - **Scott Nix**

“I feel very comfortable in these sockets!” - **Gerald Melaragno**

“Once I got into the Quatro socket, it totally made sense to me.” - **Rustin Hughes**

“This technology has allowed me to continue doing the sports I love.” - **Tracy Hickey**

“As an amputee and ski racer, my goal was to create the best fitting leg on the market for any activity level.” - **Joe Johnson**, CEO of Quorum and creator of the Quatro Adjustable Socket
