LIFE WITHOUT LIMITATIONS

REBOUND[®] KNEE

Nothing compares

REBOUND® KNEE BRACE. NOTHING COMPARES.

Breathe freely.

Featuring our unique, 3-layer Cooltech™ fabric, the Rebound Knee Brace is highly breathable, reduces heat retention and dries ultrafast.

Popliteal comfort.

The Rebound Knee Brace stretches in extension and relaxes back to its natural shape in flexion, minimizing the popliteal bunching that causes skin irritation in other products.

Patella support included.

A removable, universal patella buttress is included with every sleeve version of the Rebound Knee Brace for easy, customizable patellar support, whenever necessary.

Control where it counts.

Dual lower cruciate straps enable fine-tuned control of the anterior-posterior hinge placement and cinch the Rebound Knee Brace above the gastroc to reduce migration.

Strap it your way.

The reversible strapping of the Rebound Knee Brace can be set up to pull laterally-to-medially, medially-to-laterally, or a combination of both, depending on your specific objectives.

COVERING ALL THE BASES

With six variations to choose from, Össur's Rebound Hinged Knee Brace product line is a comprehensive portfolio of high-quality braces designed to serve the needs of a broad range of patients.

	707X61		703061	4XLarge	Circumference: 28.5" (72cm) to 32" (81cm)

X = 1 (Long), or 0 (Short)

¹ Circumferential measurement: 6" above mid-patella.

A LINE WITHOUT LIMITATIONS

The Rebound Knee Brace is part of a comprehensive line of Össur knee injury solutions intended to meet a full range of patient needs. Below are a few of our other popular knee injury solutions. For a complete listing, please request a copy of our OA and Injury Solutions catalog from your Össur representative.

CTi®

Captures the tibia, providing the brace-to-bone contact needed for total support of the knee joint.

MVP® Contour

A versatile, low-profile ligament knee brace that is suitable for most patients and activity levels.

Unloader One®

Clinically proven to decrease pain associated with unicompartmental osteoarthritis.

Innovator® DLX Post-op

Adjust ROM, set the drop lock, or alter the brace length all with OneTouch™ simplicity.

Exoform Knee Immobilizer

Highly adjustable, with a Slide-to-Size™ feature that allows inventory reduction.

FX™ Patella Stabilizer

Provides patellar tracking and assists in restoring normal kinematics to the joint.

Form Fit® Knee

Neoprene ROM/non-ROM knee braces that help you meet the unique needs of any patient.

Cold Rush®

Strong flow rate, long cooling times, and quiet as a whisper.
