

## Bridging the GAP in drop foot care

A unique wearable solution that wears like a sock, but functions like an AFO, with or without shoes, in dry or wet environment.

### ENHANCED MOBILITY

The Sstep promotes a natural gait and enhances overall stability.

### INNOVATIVE SUPPORT SYSTEM

The Sstep features an innovative support mechanism that was designed to gently lift the drop foot to avoid toe-stubbing, stumbles and falls while walking.

### DISCRETE AND COMFORTABLE

Whether you're wearing shoes or walking barefoot, the Sstep provides continuous support, offering flexibility in usage at home, at the beach, or at work.

### QUALITY OF LIFE

The Sstep allows for safer and more confident mobility, positively impacting your quality of life by reducing the physical and emotional challenges.
