

Engineered for Every Step: The Pace Line

A refined range of Carbon Fiber AFOs

A-Pace

Anterior Lateral Strut AFO

Magnetic closures

Enables easy one-handed operation

Comfort

Soft, breathable, and stylish padding

Adjustable

Height-adjustable anterior guard

Durable & Lightweight

Formula 1 and aerospace grade Carbon Fiber

Footwear Compatibility

Ergonomic, slim footplate is designed to accommodate a wider variety of footwear

Streamlined Sizing

Two sizes with trim-to-fit design reduce SKUs

Features:

Anterior-lateral strut AFO offering intermediate stiffness for an optimal balance of support, flexibility and energy return – ideal for an active lifestyle.

Made from layered Formula 1 and aerospace-grade Carbon Fiber, with fewer joints to enhance strength and reliability. (20% lighter than Matrix Max and 25% lighter than Max 2.)

Magnetic closures allow for easy, one-handed operation – ideal for users with reduced hand mobility or dexterity.

Ergonomically designed footplate with curved heel for a more anatomical fit.

A narrower footplate allows compatibility with a wider variety of footwear.

Two size options with a trim-to-fit footplate covering US sizes 6–15, helping reduce inventory SKUs.

Customizable height with a flexible, high-strength front guard that conforms comfortably to the calf.

Stylish, breathable and cushioned soft padding for all-day comfort.

Indications:

- Low to high activity patients.
- Mild to moderate footdrop.
- With or without mild to moderate foot spasticity.
- With weak muscles or with loss of calf muscle.
- For unilateral and bilateral patients.

U-Pace

Universal Posterior Medial & Lateral AFO

Magnetic closures

Enables easy one-handed operation

Comfort

Soft, breathable, and stylish padding

Adjustable

Height-adjustable anterior guard

Durable & Lightweight

Formula 1 and aerospace-grade Carbon Fiber

Streamlined Sizing

One size with a trim-to-fit footplate reducing SKUs

Features:

Single-size posterior AFO offering intermediate stiffness for an optimal balance of support, flexibility and energy return.

Available in posterior-medial and posterior-lateral configurations to meet diverse patient needs.

One Size. Four SKUs. Reducing stock management.

Made from layered Formula 1 and aerospace-grade **Carbon Fiber**

No joints to enhance strength and reliability.

Magnetic closures allow for easy, one-handed operation. Ideal for users with reduced hand mobility or dexterity.

A narrower footplate allows compatibility with a wider variety of footwear.

Height-adjustable & trimmable footplate.

Cushioned soft padding that is stylish and breathable. Providing all-day comfort.

Indications:

- Low to high activity patients.
- Mild to moderate footdrop.
- With or without mild to moderate foot spasticity.
- With weak muscles or loss of calf muscle.
- For unilateral and bilateral patients.

L-Pace & M-Pace

Posterior Lateral & Medial AFO

Features:

Posterior lateral (L-Pace) or posterior medial (M-Pace) strut of intermediate stiffness—providing an optimal mix of support, flexibility, and energy return.

Constructed from aerospace-grade Carbon Fiber materials for lightweight strength and durability.

Ergonomic footplate with a curved heel for enhanced fit and comfort.

A narrower footplate increases **compatibility with a variety of footwear**.

Breathable padded cuff with a **reverse-pull, hook-and-loop strap** for a secure and comfortable fit.

Flexible, **high-strength posterior band** that conforms easily to different calf shapes.

Indications:

- Low to high activity patients.
- Mild to moderate footdrop.
- With or without mild to moderate foot spasticity.
- With weak muscles or loss of calf muscle.
- For unilateral to bilateral patients.

Footwear Compatibility

Ergonomic, slim footplate is designed to accommodate a wider variety of footwear.

Stylish Comfort

Breathable padded cuff with reverse-pull strap.

Durable & Lightweight

Aerospace-grade Carbon Fiber materials for strength without bulk.
