

Easy-to-use Strap System

Adjustable straps can be cut to fit a variety of patients.

Adjustable Uprights

Easy Push button system has telescoping adjustability between 18in-25.5in (46cm – 65cm); can also be bent to provide varus/valgus support.

X-Act ROM Hinge

Durable aluminum hinges provide precise protection and range of motion with Extension settings from -10° to 90° and Flexion settings from -10° to 120°

Full Circumferential Foam

Cool, breathable foam provides a comfortable fit to patients' leg and helps minimize migration of brace.
